

Announcing RiskyProject 3.2 for Microsoft® Project

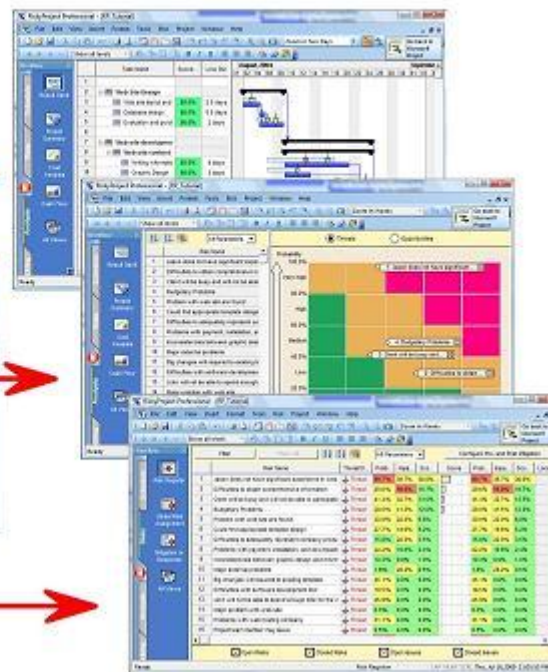

Attention Microsoft Project users - Intaver Institute has released RiskyProject for Microsoft Project. With RiskyProject 3.2, analyzing and managing risks in schedules created in Microsoft Project has never been easier.

Project Schedule in Microsoft® Project

Use RiskyProject toolbar in Microsoft® Project to access Risk Register, Risk Matrix, Risk Adjusted Gantt Chart, and other risk related views.

RiskyProject Adds Risk Views to Microsoft® Project

Improved Reporting

Customizable Task and Risk Reports allow you to quickly and easily view:

- Probabilistic and Deterministic Task Parameters (duration, start and finish times, cost)
- Risk Properties (Probability, Impact, and others)
- Risk Assignments to Tasks or Resources

Risk Mitigation Waterfall Chart

Graphically track the results of your mitigation efforts.
