Upgrade to RiskyProject 5

For a limited time, all users who purchased RiskyProject Professional or Lite 3.x prior to June 2011 can upgrade their existing RiskyProject Professional license for the low price of $150.00. If you purchased RiskyProject 4.x, you are eligible for a free upgrade to RiskyProject 5. With the latest upgrade, you get:

- Improved RiskyProject Add-In for Microsoft® Project – perform risk analysis without leaving Microsoft Project
- New statistical reporting engine instantly generates histograms, cumulative probability, scatter plot and tornado diagrams for multiple network activities
- Improved performance: 64-bit version optimized to handle extremely large project schedules
- Improved sensitivity analysis: new tornado diagrams for each task
- Run analysis on large consolidated/master projects
- Automatically publish statistics report to Microsoft PowerPoint (professional version only)

Upgrade Now!

To get more information and pricing about the RiskyProject Corporate Package, please contact sales@intaver.com

Upcoming Free Webinars

Managing Risk Register in RiskyProject

Date: Tuesday, November 20, 2012

Time: 10:00 AM - 11:00 AM MST (UTC-07:00)

[Register for the webinar](#)

RiskyProject has a flexible risk management system that it allows it to meet the specific needs of organizations. This webinar shows how to utilize risk register for risk management as well as for quantitative and qualitative risk analysis. The webinar also demonstrates how to customize your risk register, risk matrix, and risk properties to align RiskyProject with your risk management guidelines.

Tip of the Day - Statistics Report

RiskyProject's Statistics Report allows you to quickly and easily generate a customizable report for any number of activities or milestones in your project. It includes:

- Histogram
- Cumulative Probability Plot
- Sensitivity Analysis (Tornado Chart)
- Percentile and Statistics table.

The report can be easily customized to meet your organizations requirements and can now be published directly to PowerPoint using either the built-in report template or a existing company template.
